

Artventure Outreach Newsletter

February 2021 edition

Artventure Studio is Still Closed Due to the National Lockdown

We are carefully monitoring Government guidelines and the situation in Surrey and will keep you informed about reopening. We continue to do our best to be back as soon as we feel it is safe for our participants and staff to return. We will reassess the situation next at the end of February.

Distance Program

We carry on with our art activities online and offline during the time the studio is closed. We hope you have received our little art material and activity pack and had fun with it. We are glad that more and more people participated our Zoom sessions, and we encourage you to join in with us. It is great to see everybody and we have fun.

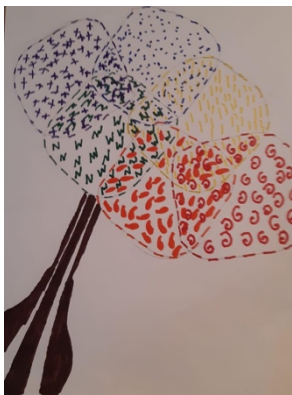

We offer Zoom sessions now three times a week:

- Monday Morning Chat every Monday at 11am
- Art session every Tuesday at 11pm and
- Chat session every Friday at 11pm

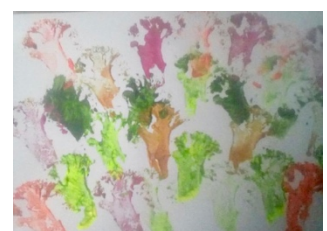

These sessions are safe and are available exclusively for our participants. Let us know if you want to join our Zoom sessions and we will send you the access information. We always publish the access information in our Closed Facebook group, too.

Please see the projects we have completed in January below:

At our first session we used and traced simple household objects to create pictures. Can you find out what objects we used? Try this project at home. It is great fun.

Then we introduced our new theme: Vegetables and fruits, and made beautiful prints using vegetables and fruits:

Then we created charming spring flowers of recycled materials, like egg boxes, plastic bags and chocolate papers. You can make them 3-D or stick them to paper right away. Look at the daffodils and snow drops:

Then we started our still life project. Look at these beautiful pictures. We learnt about composition, backgrounds, shades, colours and textures. We will continue with these in February and I think we will come back to still life painting once we are back in the studio.

Activities enclosed

You will find enclosed a little Valentine's Day card making kit with a special project prepared by Lyanne for you. Feel free to create your own design with the bits and pieces provided. Please do not forget to send us a photo of the card you created.

You will also find a small, advanced pom-pom making kit in the envelope. I would love to receive pictures of cute cats, please!

Neil prepared the enclosed lovely colouring picture of a blue tit and also created a word hunt puzzle for you. I hope you will enjoy them.

Please stay safe and stay tuned for more art from Artventure online and offline. Have a wonderful February!
