April 2022 edition

Environments – an Exhibition by Daisy at the Robert Phillips Gallery in Walton-on-Thames

18 Artventure artists were featured in this exhibition from 4th to 23rd January 2022 at the Riverhouse Barn. You can see how many different art forms were represented.

Nature's Treasures Collection

We had an exhibition at the Cranleigh Arts Centre from 4th to 22nd January. We displayed a collection of silk screen prints produced during our summer workshop and a collection of Nature's Treasures photographs.

Nature's Treasures photographs are also on display until the middle of May at the waiting room on Platform 3 at Guildford Station. Check them out if you have the chance.

The Nature's Treasures project was supported by Daisy. Their contribution made it possible to set up our own photography department and offer the participants interesting photo projects on a regular basis.

Japanese Collection at the Electric Theatre

We are glad to be back at the lobby of The Electric Theatre in downtown Guildford with a new collection. This time pictures from our 'Japan' project were exhibited until 31 March. In the next two months we will share the space with Gosden House School and we will put a few remarkable pieces from our Australia collection on display. Please visit the Electric Theatre and check out our exhibition.

Our 'Birds' Project

This spring participants were creating beautiful pictures, models, and sculptures of birds. You will have the chance to see these lovely pieces during our Surrey Artists Open Studios Exhibition in June.

Rooted in Guildford

Artventure will be part of Rooted in Guildford Arts and Mental Health festival in May 2022 at G-Live. We will have 15 pieces exhibited in the foyer of G-Live from our 'Trees' collection. We hope you will have the chance to visit this lovely event.
